## OBJECT

To score as many points as possible by changing the color of the cubes on the pyramid from a starting color to a destination color. You'll do this by hopping Q\*bert from cube to cube while avoiding the "nasty" characters who will try to stop him. Each time you complete a pyramid, you'll proceed to a new pyramid—or round. Try to complete as many rounds as you can. There are nine game levels in all; four rounds per level.

## SETTING THE CONSOLE CONTROLS

1. Make sure the cartridge is placed firmly into the cartridge slot.
2. Turn the OFF/ON switch to ON.
3. Press the RESET button. You'll see "Parker Brothers presents Gottlieb's Q\*bert" on the screen.
4. Press 2 only if you want to play a two-player game.
5. Press ENTER, and you're ready to start Q\*bert hopping.

## THE HAND-HELD CONTROLLERS

Use the directional disk on your hand-held controller to hop Q\*bert from cube to cube. Remember, Q\*bert can only hop in a diagonal direction.

## PLAYING

You'll start the game with three Q\*berts. The first Q\*bert will appear on the topmost cube as soon as you hit ENTER. The remaining Q\*berts are shown to the left of the pyramid.

Try to hop Q\*bert onto each and every cube, so that eventually the entire pyramid becomes the destination color. The destination color indicator is on the left of the screen. Be careful not to hop Q\*bert off the sides of the pyramid or off the bottom row of cubes. If you do, he falls and you lose the Q\*bert. When this happens, the next Q\*bert will appear on the topmost cube ready to try again to complete the pyramid.

## Red Ball

When Red Ball starts rolling, get Q\*bert out of its path or it will squash him! If this happens, the next Q\*bert will appear on the cube where the last one was squashed.

## Purple Ball

Poses the same kind of danger as Red Ball, except that when Purple Ball reaches the bottom of the pyramid, it hatches Coily the snake!

## Coily

He's the snake with the perilous pounce! The only way to get rid of Coily is to lure him off the pyramid by hopping a flying disc.

The best way to do this is to hop Q\*bert onto the exit cube. (There is only one correct exit cube for each flying disc.) Then as soon as Coily approaches the exit cube, hop Q\*bert aboard the flying disc. Q\*bert flies off to safety while Coily falls into space.

**Flying Discs**

When Q\*bert's in trouble, he can board a flying disc that will whisk him off to safety at the top of the pyramid. The number of discs and their placement to the sides of the pyramid will differ, depending on the game level and round.

Just make sure Q\*bert boards the flying disc from the correct exit cube or else he'll fall off the pyramid.

**Ugg**

Ugg appears on the lower portion of the pyramid and travels sideways and upwards, ready to jump on Q\*bert. If he does, the next Q\*bert will appear on the cube where the last one was jumped.

**Slick**

Even though Slick can't catch Q\*bert, he's still a very crafty fellow. He changes the cubes' colors back again so Q\*bert's got to retrace his tracks. If Q\*bert stops him, however (by running into him), you'll earn bonus points.

**Green Ball**

Green Ball is the other green character that can't catch Q\*bert either. But if Q\*bert catches Green Ball, all the characters except Q\*bert freeze for a moment, Q\*bert can continue to hop, and you'll earn bonus points.

**END OF ROUND**

The round ends when you complete the pyramid. As long as you have a Q\*bert remaining, a new pyramid will appear with a new destination color.

**ROUND PROGRESSION**

As you progress from round to round, Q\*bert's speed, the speed of the other characters, and the frequency of the other characters' appearances will increase.

**END OF GAME**

The game ends when you run out of Q\*berts. To play again, press RESET, then ENTER. The game will begin at Level 1, Round 1.

**TWO-PLAYER GAMES**

The left player goes first; players alternate turns. Your turn ends when you lose a Q\*bert; you resume playing with your remaining Q\*berts.

The game ends when both players have lost all their Q\*berts.

## **REACHING THE DESTINATION COLOR**

The following describes Q\*bert's coloring pattern in the nine game levels.

**S = Starting color   I = Intermediate color   D = Destination color**

Level 1	When Q*bert jumps on S, it changes to D. When he jumps on D, it stays at D.
Level 2	When Q*bert jumps on S, it changes to I. When he jumps on I, it changes to D. When he jumps on D, it stays at D.
Level 3	When Q*bert jumps on S, it changes to D. When he jumps on D, it changes back to S. Q*bert's got to start again.
Level 4	When Q*bert jumps on S, it changes to I. When he jumps on I, it changes to D. When he jumps on D, it changes back to I. Q*bert's got to start again.
Level 5	When Q*bert jumps on S, it changes to I. When he jumps on I, it changes to D. When he jumps on D, it changes back to S. Q*bert's got to start again.
Levels 6-9	The destination color is reached in the same manner as in Level 5. Play becomes more and more difficult as characters and objects appear with increasing speed.
